

Volunteer Spotlight

March 2010

Maria Reusing, an Environmental Science major at Towson University is filling the role of Conservation Landscaping intern at the DRC this spring. Maria will be putting together portfolios of planting opportunities for community and public spaces around Dundalk. She will be working with community groups, giving them options for landscaping with trees, rain gardens, and native plants. Maria lives in Dundalk and is a graduate of the Catholic High School of Baltimore. We are glad to have her on board this spring and look forward to all of the good work she will do!
